CAPTURING THE ENTERTAINER

The entertainer takes bold hues and curates them in a carefully constructed manner, blending soft curves with hard lines.

Wood and minerals naturally complement the earthly shades in this palette, to create a sense of grounding in the room.

With a meticulous eye for detail, he/she relishes in sourcing beautiful objects to inspire and impress.

He/she is a true epicurean. From dark notes of an aged Burgundy, to freshly baked Parisian delicacies, the entertainer leaves guests feeling like royalty.
