L

11 *(Repeat on all drawer fronts).*

1

Drawer base — M

I — Drawer back

J — Drawer side

x2

12 *1 – Lay drawer side (J) on a flat surface, insert the base (M) into the groove then hold the back panel (I) in place.*

2

Drawer side

K

Drawer base — M

I — Drawer back

J

x2

2 – Place the other drawer side (K) over the base and fasten the back panel (I).

3

Drawer front

L

3 – Turn the drawer around and add the drawer front (L) . (Repeat on all drawers).

1

Pull the sliding part of the lower drawers out first and hold in place.

G

13 *1 - Pull the sliding part of the lower drawer runners out and sit the drawer on top. Whilst holding the runners in place, slide the drawer back until the drawer clicks into place.*

2

Drawer shown from underneath.

Locking button

Turn to adjust height

2 - Use the locking button to secure the drawer. Repeat for all drawers. To remove a drawer, reverse the operation.

5 x4   6

Ensure the bracket slopes towards the corners.

Turn the unit on its side to attach the feet.

Turn the feet clockwise to attach.

N

14 *Fix the brackets in place using the wood screws, repeat on all four corners. Screw the feet in place by turning them clockwise.*
